

AV BRIDGE CART INSTRUCTIONS

The cart includes a 65" monitor, speakerphone, camera, HDMI cable w/ adapters, USB cable, and remote for the monitor.

PLUG IN POWER CORD

Plug in the power cord to power up the cart. Then power on the monitor with the remote.

SPEAKERPHONE + CAMERA

The speakerphone has speakers on either side, a microphone that can pick up individuals from 15 ft away, and a wide-angle camera.

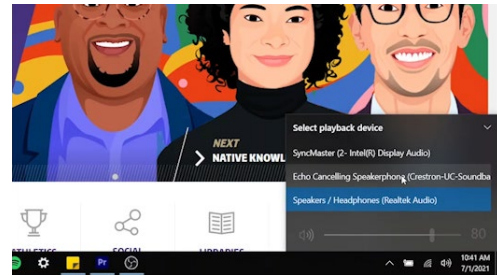

HDMI + USB CABLE

Plug in the HDMI cable to display your device on the monitor. Plug in the USB cable to interface with the microphone + camera. Plug the USB cable into a USB 3.0 port.

AUDIO + PLAYBACK DEVICE

Select “Echo Cancelling Speakerphone” as your playback device on your computer.

SELECTING CAMERA + MICROPHONE

Select “Echo Cancelling Speakerphone” in the speaker and mic section and “Huddly IQ” in the camera section.

HUDDLY CAMERA

The Huddly IQ camera will auto-frame a speaker if they move around the room. Download the huddly app and make sure to select “auto” to enable this. If you want to pan/tilt/zoom the camera, de-select “auto” to do this.
