

W

PAIRING MICROPHONE TO RECEIVER

- 1.) The microphone should be paired already, but if it's not here's how to pair the mic to the receiver.
- 2.) The channel and group must match on both the receiver and the microphone itself.
- 3.) Lift the front panel from the front of the lav mic to change the group and channel.
- 4.) Hold down the group button, release, and then press to cycle through letters.
- 5.) Do the same for the channel numbers.
- 6.) The "ready" light should be solid green when paired correctly.
