

YEALINK CP-960 CONFERENCE PHONE GUIDE

PHONE EXTENSION

206-685-0281

PHONE: 206-543-6729 EMAIL: CRSHELP@UW.EDU

- **1.)** You should have 3 power components that come with the phone.
- **2.)** The A/C power cable, Ethernet cable, and POE (power over Ethernet) injector.

- **3.)** Plug the Ethernet cable into the **"PWR_POE"** port of the power injector and then into the **"Internet"** port underneath the phone.
- **4.)** You have the option to plug into the **"Ethernet IN"** port and plug into a network port in the wall. We recommend using the wifi, because not all the ports are active in our rooms.

- **5.)** Plug in the AC cable to the power injector then into the wall.
- **6.)** Wait for the phone to boot up.

- **7.)** When the phone is finished booting up, it should look like this.
- **8.)** The phone extension should be green on the top and the wifi symbol should be green as well.
- 9.) If there's no wifi present, press the "Settings" button.

~	Setting		
Basic Settings			
Aa	Language & Input		
	Time & Date		
4	Display		
()	Sound		
6	Change PIN		
*	Bluetooth		
(((.	Wi-Fi		
•	Wireless Microphone		
Advanced Settings			

10.) Scroll down until you see "Wi-fi"

11.) Tap the wifi on/off slider to the right to enable wifi.
12.) Then, connect to the "University of Washington Network."

13.) Navigate back to the Home screen and simply press **"Dial"** to place a call.

- 14.) Place a call as you normally would, and if you need to add more members to the call, tap the "Call multiple members?" message above.
- **15.)** Dial 9 for an outside line.
